

# Seismic CB

White Paper

V2

Updated 26 January 2022

## Seismic Vision:

Seismic CB Ltd is a public company incorporated in the Republic of South Africa with CIPC Registration number : 2021/154161/06 and a financial services provider that provides transactional, credit and investment financial services within South Africa and the global marketplace.

Our ultimate vision is to become the dominating power and banking partner of choice within our target markets and the crypto world.

Seismic CB Ltd adheres to the highest levels of integrity, security and transparency to ensure that our clients have a seamless and pleasant experience while transacting with and through us.

## Who Seismic was built for:

In South Africa Seismic is built for the unbanked, informal and lower income users. Seismic is aim's to provide an effective alternative to traditional banking and give users easy and fast access to funds.

Globally Seismic provides users with the ability to spend crypto currency on a wide variety of products and services along with on and off ramping features to be revealed in future.

Seismic CB Ltd brings the highest possible value in transactional solutions to both the real world with global expansion plans as well as the crypto community to enable users on both ends to enjoy the benefits of seamless fast transacting without limitations of traditional banking.

## Why will South Africans & The World use Seismic?

Although South Africa boasts a world class financial system, the costs of transacting within the traditional South African banking system are expensive and difficult.

Seismic offers an alternative and allows for the adherence of specific regulations often neglected by employers of the target market.

In addition to ease of use and cost effectiveness, Seismic is very proud that all transactions internationally within the Seismic eco system are immediately available by the receiving party.

Seismic offers the user a fintech up to date experience in banking, getting rid of the waiting times and traditional means of transacting while capitalizing on the effectiveness and profitability of crypto currency. Thereby providing a solution to a long standing problem in traditional banking and building wealth through innovation and transparency.

### **What transactions can you perform when using the Seismic Suite?**

- Payments to other Seismic account holders
- Payments to other 3rd party banks
- Cash withdrawals (Limited to KYC consumers)
- Spend Seismic with your Seismic MasterCard Debit Card
- Buy Airtime, Data & SMS Bundles
- Buy prepaid electricity
- Cash send to someone's mobile phone
- Transfer fund between Seismic & Binance Smart Chain
- Investment & Loan Products to be announced in future
- Several Seismic Merchant Services to be launched in Q1 2022

### **I am a BSC investor, why should I invest in Seismic?**

Seismic being a unique financial services provider in South Africa and the world, offering the potential investor great returns in both dividends and rewards instruments like staking.

Seismic is one of the few BSC tokens that boasts a 0% tax for wallet to wallet transfers of Seismic. The max Seismic tax is always aimed to be 10% or less and taxes for buying and selling are the same.

20% of the Seismic CB Ltd company belongs to the Seismic holders and dividends are paid to shareholders. Ownership of these shares are held in trust for the BSC and other blockchain users in future.

Seismic has a passionate team and some of the best in the field and most respected people are involved with Seismic on the highest executive levels.

Seismic in its use case form offers massive passive income to investors.

This excludes dividends and future opportunities for holders when Seismic launches its future investment and loan instruments.

### **How does Seismic make money in BSC and the Real World?**

#### **BSC:**

Seismic makes money in the BSC world, in the same way as other BSC token, through taxes on buys and sells.

Seismic is also planning several additional utilities to be launched as “use cases” for BSC users and to always bring true utility to our investors.

#### **Real World:**

Seismic makes money in the real world through feedback or reflection and transaction costs. Seismic currently has a target market consisting of 19 million people within South Africa.

Everytime someone deposits money into their Seismic account (buy Seismic) using a credit card in South Africa a 1% fee is paid to Seismic.

For every transaction swiped with a Seismic debit card, Seismic receives a minimum of 0.5% in fees of the fee charged to the merchant accepting the MasterCard.

When making a EFT payments seismic receives a flat fee of approximately \$0.17

Seismic also receives a 5% fee on all prepaid product (Airtime, Data, SMS & Electricity Bundles)

Example of fees earned by Seismic monthly in US Dollar:

<b>Depositing Users</b>	<b>10,000</b>	<b>100,000</b>	<b>1,000,000</b>
<b>Deposit Value</b>	\$2,666,666.67	\$26,666,666.67	\$266,666,666.67
<b>Fees &amp; Commissions</b>			
<b>Services</b>	\$150,000.00	\$1,500,000.00	\$15,000,000.00
<b>Debit Card Swipes</b>	\$100,000.00	\$1,000,000.00	\$10,000,000.00
<b>Electronic Funds Transfer</b>	\$12,900.00	\$1,290,000.00	\$12,900,000.00
<b>Gross Operating Profits</b>	<b>\$262,900.00</b>	<b>\$3,790,000.00</b>	<b>\$37,900,000.00</b>

*\*The above is merely a illustration of profitability and Seismic CB Ltd believes profits will be much greater*

### **What makes Seismic Different:**

Seismic aims to use crypto currency as the backbone for a mainstream means of exchange and to enable users who have no idea of crypto currency to utilize crypto to make their daily lives better and more affordable.

Seismic is the first to market at least in South Africa and the greater global economy to offer this service to the man on the street. Essentially making it an uncontested market. And therefore the opportunities for Seismic to achieve extreme heights without competition is almost certain.
